**Happy Hearts, Open Minds, Bright Futures**

Jesus promised: "I came that you may have life and have it to the full."

- John 10:10

## Our Vision

Every child at Fladbury will know they are loved by God, have a **happy heart** and be part of a flourishing, well-led school. When they leave Fladbury, they will be well-prepared to meet challenges, confident in their abilities and look forward to their **bright future** with an **open mind**.

## Our English Aims

At Fladbury, our English curriculum will equip children with the necessary literacy skills to have bright futures as competent readers and writers. Through enthusiastic and carefully planned teaching, children will engage with and respond to a variety of quality texts, formulating and developing their communication skills and linguistic knowledge through speaking, listening, reading, and writing. We aim to ensure that all pupils develop open minds through experiencing a diverse range of writing by authors from different cultures and backgrounds. Our children will have happy hearts through experiencing the joy of reading for pleasure, and writing as a means of self-expression.

## Happy Hearts

Through carefully planned and enthusiastically delivered learning opportunities, teachers will nurture 'happy hearts' through an enjoyment of speaking and listening, reading, and writing for pleasure.

By sharing high quality texts that capture children's interest and imagination, we will allow children to develop a life-long love of reading. Children will experience the many benefits of reading on wellbeing, including (but not limited to) increased self-esteem, higher levels of empathy, and better social connections, as well as enjoying a good book for its own sake.

We will offer regular and varied speaking and listening opportunities that will develop children's self-confidence, helping them to feel comfortable when expressing themselves and their opinions.

Ensuring that our children have the necessary skills to write enables them to enjoy the proven therapeutic benefits of expressive or creative writing: refining their thoughts, processing emotions, and improving overall mood.

## Open Minds

Our English Curriculum will foster an 'Open Mind' by exposing children to quality texts from a variety of authors and sources. These texts will broaden children's understanding of different cultures, time periods, and lifestyles. Our teaching sequences allow pupils to immerse themselves in stories, poetry, and non-fiction, enabling them to gain a deep understanding of - and engagement with - the texts.

Children will be equipped with the skills to learn more about topics that interest and excite them, discovering information for themselves and sharing it with others. In an increasingly information-saturated world, they will learn how to find, retrieve, and filter knowledge from a range of sources, and how to use it for their own needs.

Pupils will have the opportunity to write for a variety of audiences and purposes, considering the way language can be used to inform, entertain, persuade, and discuss. They will consider the effects of certain vocabulary choices on readers, and discover the power of the written and spoken word.

## Bright Futures

Good literacy skills enable children to communicate effectively, understand written information, and make sense of the world. By effectively teaching the essential skills of speaking, listening, reading and writing, we will equip our pupils with the necessary tools to enjoy bright futures.

Children will learn how to be confident and effective communicators, with the necessary vocabulary to enable them to navigate complex personal and professional relationships. They will be taught how to use language to negotiate, to persuade, to present information, and to build and sustain social connections – all of which will have a positive impact on their life chances.

By ensuring that all children reach their full potential in terms of literacy skills, we will maximise their prospects in terms of their future education, employment, and economic wellbeing. Because of this, our children will have more choices when the time comes to make decisions about their future lives and careers.

## Spirituality in English

Fladbury's definition of Spirituality is: Spirituality is about understanding that we are part of something bigger than ourselves. It's the connections and relationships we have with God, with others, with ourselves and with nature. It brings about a sense of awe and wonder and can lead to asking big questions about who we are and our place in God's world.

The English curriculum nurtures spirituality as it allows students to meet and consider humans beings from a wide array of backgrounds and across the decades and indeed centuries. In the deeply personal reading experience, our students as readers make connections with characters and their circumstances and context, thus allowing them to build empathy, concern, and compassion for these characters whilst also considering their plights, circumstances and choices. In so doing, our students further engage in a spiritual experience as they are able to reflect on the characters they study, and the themes, to engage in self-reflection. We lose and find ourselves in books – their worlds, characters, issues, contexts etc – which is in itself a deeply spiritual experience.

Intent	Implementation	Impact
<p>The aim of the English curriculum at Fladbury is to give children the skills, tools and confidence they need to communicate their ideas and emotions effectively. Through their time at the school, pupils will experience the rich language of high quality literature, develop an understanding of morphology and etymology when learning to spell, and learn to make choices to communicate their ideas effectively in writing for a range of purposes and audiences. We believe that the teaching of reading is integral to a child's understanding and appreciation of the world around them; a platform that allows our children to see beyond what they know, share in cultural experiences and develop the vocabulary they need to effectively express themselves. Our reading curriculum strives to foster a lifelong love of reading. We cultivate the behaviours that they will need to be discerning readers as they read frequently and widely using a range of strategies and discuss what they read.</p>	<p>In EYFS, there is a planned sequence of activities and experiences for children covering each area of learning, including developing fine-motor control and knowledge of stories.</p> <p>In Years 1 – 4, teachers plan sequences of learning to include intended writing outcomes, grammatical skills, spelling objectives and assessment opportunities in writing, as well as reading skills including inference and retrieval. Our structured approach to reading is carefully designed to ensure the best results for our children. We follow Read, Write, Inc. – a systematic synthetic phonics programme that teaches children the decoding skills needed to learn the alphabetic code, and ensures children experience success from the very beginning. Once the children have mastered the phonic code, then they receive daily guided reading sessions which focus on retrieval and higher order reading skills and the development of vocabulary using a range of texts – fiction, non-fiction and poetry.</p>	<p>To ensure the best outcome for all our pupils, assessment is used continuously to identify any child who is in danger of falling behind. Targeted interventions are used to help these children 'catch up' and their progress is carefully monitored by class teachers and school leaders. Regular phonics assessments allow us to regroup children each half term, so that they are always working at their challenge level. We use fluency and NFER comprehension tests to track progress in KS2. We use the Herts for Learning assessment grids for writing in Years 1 – 4, and writing is moderated termly to ensure consistency throughout the school. Pupils' books will show evidence of reading and writing for a range of purposes. They will demonstrate an increasingly wide vocabulary, developing control of handwriting and growing confidence with the skills taught in writing lessons, and evidence of a range of reading domains being taught.</p> <p>Subject leaders monitor the teaching and learning of English through learning walks, pupil voice surveys, book trawls, professional dialogue, and subject review with the link governor.</p>

# Reading and Writing Across Our School

## EYFS

Our Early Years curriculum is adapted each year in order to meet the unique and varied needs of our learners. Our children learn through purposeful play, and there are many and varied opportunities for them to mark make, and to develop their fine and gross motor skills, phonological awareness, and their understanding of story. Quality interactions with adults and peers are key to building children's communication skills, and we ensure that adults model the vocabulary and sentence structure that we aim for our children to develop. Daily phonics sessions build children's phonetic awareness from the beginning, and when they are developmentally ready, they are supported to find a secure and comfortable pencil grip in order to begin to write. Stories are shared every day, and children work with an adult regularly to target their individual next steps in learning.

## Year One

Teachers will build on the phonics knowledge and skills learnt in EYFS when planning and delivering English lessons for Year 1 children. In reading, the focus will be on ensuring speedy and accurate segmenting and blending, complete GPC knowledge, and sight recognition of CEWs. Alongside this, children will have the opportunity to hear, discuss, and orally rehearse stories, poems, and non-fiction texts in order to develop a love of reading and a broad and ambitious vocabulary. Children will have opportunities to write to inform, and to entertain. They will be immersed in high-quality texts that are exciting, vocabulary-rich, and provide excellent models for writing. Planning will ensure there are opportunities for thinking aloud as children collect ideas, drafting, and re-reading to check their meaning is clear. Writing tasks will have an emphasis on developing children's transcription skills, with spelling and letter formation at the heart of English lessons. Children will write lots of dictated sentences and key words alongside constructing sentences orally, before learning to write sentences that they compose themselves. Evidence for oral composition may be gathered via video clips, which can be evidenced in books via QR codes.

## Year Two

In Year 2, children should be able to blend all common graphemes to read unfamiliar words, and should read many on sight without blending out loud. Teachers will focus on improving accuracy and speed, as well as fluency, in order for comprehension skills to develop. Children will have access to a wide range of books to read and discuss, carefully chosen in order to develop their knowledge and vocabulary. Tier 2 and 3 vocabulary will be explicitly taught in order to aid understanding.

When writing, children will still compose simple sentences orally before writing them down. There will still be an emphasis on accurate spelling and letter formation, with dictated sentences and key word spelling playing a central role. Children will learn morphology and etymology in order to support their spelling proficiency.

Children will have opportunities to write to inform and to entertain, and will be taught to organise their writing for different purposes. Their writing will be increasingly informed by their reading, and they will have many and varied opportunities to read as a reader and a writer, to discuss the effect of a text and the choices an author has made. Children will be taught to draft and edit their own work in order to check it makes sense, and will have the opportunity to make revisions where appropriate.

## Year Three

In lower Key Stage 2, teachers will ensure that children can read accurately and at a speed that allows them to focus on understanding what they have read, rather than on decoding. Teachers will work hard to develop the breadth and depth of children's reading, in order for them to become independent, fluent, and enthusiastic readers. Children will have the opportunity to discuss what they have read, and will learn to justify their opinions on it with increasing independence. They will demonstrate an understanding of figurative language, and will be able to distinguish shades of meaning among related words and use age-appropriate, tier 3 vocabulary. Children will have opportunities to write to inform, to persuade, and to entertain. They will be exposed to a wider variety of grammar, vocabulary, and narrative structures from which they can draw influence for their own writing. Children should be able to join their letters, and to develop a comfortable and fluent speed at which to write in order to keep up with their ideas.

Children will still have opportunities for oral composition through drama, role play, and formal presentations, as well as in order to rehearse sentences before they write them.
